

Certificate of Completion

Cybersecurity Level 3 - Palo Alto Firewall

This is to certify this student pursued studies and completed all the requirements for this course

This certificate is awarded to

Zahid Ullah

The cybersecurity level 3 course is an advanced course designed to provide students with a deep understanding of network security with a focus on Palo Alto firewalls. Students gain hands-on experience in configuring and managing Palo Alto firewalls to secure complex networks. This course covers advanced cybersecurity topics such as advanced threat prevention, network traffic analysis, and secure application development. Upon completion of this course, students will have gained extensive knowledge and hands-on experience in network security with a focus on Palo Alto firewalls, making them highly proficient cybersecurity professionals.
