

Certificate of Completion

Cybersecurity Level 2 - Hacking within Lab

This is to certify this student pursued studies and completed all the requirements for this course

This certificate is awarded to

Zahid Ullah

The cybersecurity level 2 course is an advanced course designed to provide students with hands-on experience in a lab environment. Students are exposed to various advanced cybersecurity topics such as network penetration testing, ethical hacking, incident response, and advanced threat analysis. Upon completion of this course, students will have gained an in-depth understanding of advanced cybersecurity concepts and be equipped with practical skills to secure complex systems and networks.
