

Certificate of achievement

Full Ethical Hacking Course Volume 1

This is to certify this student pursued studies and completed all the requirements for this course

This certificate is awarded to

Zahid Ullah

This course on ethical hacking equips learners with the fundamental concepts and techniques of ethical hacking. It covers various topics such as network security, web application security, and social engineering. The course provides learners with hands-on experience in using different hacking tools and methodologies to identify and exploit vulnerabilities in systems and applications. Upon completion of the course, learners will have the skills and knowledge required to conduct ethical hacking tests and help organizations strengthen their security measures.
